

BROWNFIELD GRANT OPPORTUNITIES FOR GEORGIA'S SMALL CITIES AND RURAL COMMUNITIES

- ⇒ Does your community have abandoned industrial sites, gas stations, dry cleaners or other areas of perceived contamination?
- ⇒ Would the clean up and reuse of these properties improve your community?
- ⇒ Would your community benefit from assistance to identify, assess, and /or clean up these properties?

Join the GBA and previous EPA Brownfield Grant awardees to learn about ways that small cities and rural communities can prepare to apply for 2012 EPA Brownfield grants.

Participants will receive an overview of the state and federal approaches to addressing brownfields, a candid discussion with communities who have recently received awards, and a primer on funding sources.

The training and continental breakfast are provided free of charge compliments of the Georgia Brownfield Association.

DETAILS

Wednesday, August 31, 2011

From 9:00 am until Noon

Anderson Conference Center
5171 Eisenhower Parkway
Macon, GA 31206
